Flange Diameter:

0.672 inches

Body Outside Diameter:

0.623 inches

Body Inside Diameter:

0.375 inches

Flange Seat To Disk End Height:

0.065 inches

Under Flange Height:

0.328 inches

Seat Angle In Deg:

45.000

Seating Surface Shape:

Angular

Special Features:

Double flanged w/six drilled holes 0.186 to 0.190 in. Diameter equally spaced 60 degrees apart

Material:

Aluminum alloy 2024

Material Specification:

Qq-s-764 federal specification single material response

Surface Treatment:

Anodize

Style Designator:

Plain flanged

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A15500
