End Application:

U/o ma0001a

Valve Operation Method:

Automatic

Criticality Code Justification:

Feat and agav

Product Name:

Manufacturers suggested name is valve, shutoff, gate, electric motor operated

Inlet Relationship With Outlet:

Identical

Special Features:

Consists of rectangular slide, motor operated 4-mounting holes, 3-ports, 2 external threads

Supplementary Features:

Aircraft hydraulic systems

Reference Number Differentiating Characteristics:

As differentiated by lockheed source controlled drwaing 4h90501-101

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A500a0
