Special Features:

This valve meets requirements of lockheed specification control drwg 3h90032-103 & design specification d3h90032; pressures: operating 3000 psi, proof 4500 psi, burst 7500 psi; ambient temp range -65 to +275 degrees feh; operating fluid mil-h-5606; operating time 1.0 seconds max; voltage range 17 to 30 vdc; major component p/n's: body c5623-11, seat assembly c5624-12, plunger c5623-22, coil assembly c5623-23, ball ms134378

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A506h0
