Aperture Diameter:

Between 0.0625 inches and 0.1250 inches

Flow Control Device:

Piston

Current Rating In Amps:

0.1739

Valve Operation Method:

Solenoid

Inlet/outlet Operating Pressure Differential:

100.0 pounds per square inch

Voltage In Volts And Current Type:

115.0 ac

Special Features:

2 molded waterproof coils with 24 in. Leads, adjustable flow at both exhausts

Frequency In Hertz:

60.0

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A046b0
