Maximum Operating Temp:

250.0 degrees fahrenheit single response

End Application:

4810-01-099-6392; t.O.9h8-2-183-3

Valve Operation Method:

Solenoid

Special Features:

Outlet pressure 380.0 to 420.0 psig

Media For Which Designed:

Nitrogen, gaseous single response

Supplementary Features:

Applicable on f16a, f16b acft

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A046b0
