Body Material:

Aluminum alloy

Media For Which Designed:

Air

Flow Control Device:

Piston, spring loaded and poppet

Valve Loading Method:

Spring

Filter:

Not included

End Application:

T.O. 6j15-8-131-3 fig 10-1; f-16 acft

Criticality Code Justification:

Agav

Special Features:

Manufacturers suggested name is external fuel tank vent and pressurization valve; length 8.5 in., height 6.88 in., width 5.23 in.; 28.0 volts dc (18-32 volts dc); 0.75 amps maximum at 28.0 volts dc continuous duty; wt 3.5 lbs

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A21100
