## NSN 4810-01-158-9462

Solenoid Valve - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/4810-01-158-9462

Flow Control Device Normal Operation Position:
Open
Maximum Operating Temp:
185.0 degrees fahrenheit single response
Current Rating In Amps:
1.000
Valve Operation Method:
Manual or electric motor
Criticality Code Justification:
Feat
Voltage In Volts And Current Type:
32.0 dc
Special Features:
Flight safety critical
Media For Which Designed:
Fuel/oil, hydrocarbon single response
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A046b0
