Flow Control Device:

Piston

Flow Control Device Normal Operation Position:

Closed

Connection Style:

Plain (tube) all ends

Valve Operation Method:

Solenoid

Connection Type:

Unthreaded internal tube all ends

Mounting Position:

Horizontal

Voltage In Volts And Current Type:

34.0 dc

Outside Diameter Tube Accommodated:

1.375 inches all ends

Material:

Steel body

Media For Which Designed:

Refrigerant 12 single response

Surface Treatment:

Paint

Style Designator:

A1 straight thru

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A046b0
