Flow Control Device:

Disk

Flow Control Device Normal Operation Position:

Closed

Valve Operation Method:

Solenoid

Mounting Position:

Vertical

Thread Size:

0.750 inches all ends

Material:

Rubber butadiene-acrylonitrile class nbr flow control device

Media For Which Designed:

Oil single response

Style Designator:

A1 straight thru

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A046b0
