**Overall Height:**

6.000 inches

**Overall Width:**

6.000 inches

**End Application:**

Tf33-p3 engine

**Integral Valve Operation Method:**

Pneumatic

**Design Characteristics:**

Double acting single cylinder

**Port Location And Quantity:**

Piston rod end

**Product Name:**

Control, bleed air

**Special Features:**

Found in t.O. 9p2-3-1-103

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A34200
