## NSN 4810-01-271-1063

Fluid Pressure Regulating Valve - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/4810-01-271-1063

Body Style:

Body Style:
Straight thru
Media For Which Designed:
Air
First End Connection Type:
Raised face flange
Second End Relationship With First End:
Not identical
Second End Connection Type:
Raised face flange
Face To Face Distance:
3.090 inches
Flow Control Device:
Disk
End Connection Quantity:
2
Maximum Inlet Pressure Rating:
160.0 pounds per square inch
Tempurature Rating:
455.0 degrees fahrenheit
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No

**Fiig:** A21100
