End Application:

Environmental control b-1b

Integral Valve Operation Method:

Pneumatic

Design Characteristics:

Single acting single cylinder

Special Features:

Consists of 1 piston assembly; 1 helical compression spring; 1 rolling diaphragm; 1 needle bearing; 1 operating arm; 1 rod assembly; 1 filter; 1 tube assembly; 1 actuator housing assembly

Fsc Application Data:

4810-01-148-2015

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A34200
