End Application:

F-16c/d block40-60 aircraft common

Valve Model Number For Which Designed:

Fsc application data: valve, shutoff-fuel engine elec- tronic control

Special Features:

2matl 300series corrosion resist ing steel per qq-s-763; surface treat. Passivate per mil-s-5002; funnel shaped, one end flanged; 1st end outside diameter ; 2nd end outside diameter 0.622 in.; 2nd endinside diameter 0.400 in.; 0.350 in. Lg; flange width 0.222 in..

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A512e0
