End Application:

F15e acft; u/o code b; nha manifold assembly

Valve Operation Method:

Solenoid

Spool Quantity:

2

Special Features:

Item is a pilot valve used on hydraulic actuator; consists of housing assembly p/n 3867204-2, shaft assembly, pilot valve p/n 3867214-1, motor, force, rotary p/n 7567-1, transducer assembly, pilot valve p/n 970240-1, spring, helical cprsn, bypass valve p/n 966769-1; rotary motion from motor meets with transducer to create linear motion in a sleeve and spool arrangement that controls flow

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A506h0
