**End Application:**

F15e acft; u/o code b; nha manifold assembly

**Valve Operation Method:**

Solenoid

**Spool Quantity:**

2

**Special Features:**

Item is a pilot valve used on hydraulic actuator; consists of housing assembly p/n 3867204-2, shaft assembly, pilot valve p/n 3867214-1, motor, force, rotary p/n 7567-1, transducer assembly, pilot valve p/n 970240-1, spring, helical cprsn, bypass valve p/n 966769-1; rotary motion from motor meets with transducer to create linear motion in a sleeve and spool arrangement that controls flow

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A506h0
