**End Application:**

Nha ac-130u refrig unit

**Special Features:**

Valve spring loaded closed; ambient temp range -65 degrees f. To +160 degrees feh; proof pressure 212 psig at 760 deg. Feh (valve body), 40 psig at 160 deg. Feh (supply port); burst pres 318 psig at 760 degrees feh (valve body), 60 psig at 160 degrees feh (supply port); assembly includes butterfly valve & actuator assembly

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A046b0
