End Application:

Pacer dawn

Special Features:

Type: air pressure regulating valve; fluid media: air; pressures: operating pressure (@ 185 deg. Feh.), inlet maximum 8000 psig, proof inlet maximum 16000 psig, burst inlet 24000 psig; ambient temperature -40 to 185 deg. Feh.; external leakage: none; consists of inlet & outlet port & relief valve

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A21100
