Body Material:

Aluminum

Tempurature Rating:

200.0 degrees fahrenheit

Overall Height:

4.440 inches

Overall Width:

8.625 inches

Pressure Rating:

100.0 pounds per square inch

Rotation In Deg:

90.0

Features Provided:

Manual override

Integral Valve Operation Method:

Pneumatic

Special Features:

W/dual piston

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A34200
