Flow Control Device:

Poppet

End Application:

Distilling plant; p/n 3sf3000 onboard wmec 210 ft coast guard vessels

Current Rating In Amps:

4.000 and 0.600

Valve Operation Method:

Solenoid

Mounting Position:

Horizontal

Voltage In Volts And Current Type:

115.0 dc

Special Features:

Inner parts stainless steel; discs polytetrafluoroethylene; fluid distillate; enclosure nema 4 watertight; duty continuous; conduit conn 1/2 in.

Npt; 60 hertz

Material:

Bronze body

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A046b0
