**Maximum Operating Temp:**

120.0 degrees fahrenheit 2nd response

**End Application:**

A/s32m-17 maintenance crane; f/a-18 hornet aircraft

**Valve Operation Method:**

Solenoid

**Criticality Code Justification:**

Feat

**Voltage In Volts And Current Type:**

24.0 dc

**Special Features:**

Weapon system essential

**Material:**

Aluminum body

**Media For Which Designed:**

Air single response

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A046b0
