Maximum Operating Temp:

120.0 degrees fahrenheit 2nd response

End Application:

A/s32m-17 maintenance crane; f/a-18 hornet aircraft

Valve Operation Method:

Solenoid

Criticality Code Justification:

Feat

Voltage In Volts And Current Type:

24.0 dc

Special Features:

Weapon system essential

Material:

Aluminum body

Media For Which Designed:

Air single response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A046b0
