End Application:

B2 acft, pacer special

Criticality Code Justification:

Feat

Special Features:

Manufacturer suggested name: valve assembly, fuel driven surge control; major component parts: servo valve 3176068-1, piston 318488-1, shaft assembly 3181492-1, housing assembly 3181484-1, valve body assembly 3181476-1, arm assembly 3181470-1, butterfly shaft 3181498-1; hci items; maximum inlet air temp 485 degrees feh; min actuation fuel pressure 275 degrees feh; act burst pres 2000 psig @ 300 degrees feh

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
