Attachment Method:

Retaining ring

Valve Type For Which Designed:

Fluid pressure regulating

Valve Model Number For Which Designed:

1100cm-sb

Special Features:

5material monel; circuit condition to be specified by customer when ordered; callibration atitude horizontally; liquid compatability with sea water, various fuels, lubrication and hydraulic oil; reed switch rating 10 watts lampload at 115 & 220 volts

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A513b0
