Attachment Method:
Retaining ring
Valve Type For Which Designed:
Fluid pressure regulating
Valve Model Number For Which Designed:
1100cm-sb
Special Features:
5material monel; circuit condition to be specified by customer when ordered; callibration atitude horizontally; liquid compatability with sea
water, various fuels, lubrication and hydraulic oil; reed switch rating 10 watts lampload at 115 & 220 volts
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A513b0
