Flow Control Device Normal Operation Position:

Closed

End Application:

1040-01-406-7401

Valve Operation Method:

Electric motor

Voltage In Volts And Current Type:

120.0 dc

Phase:

Single

Special Features:

1/8 two way valve; viton seals; dc coils

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A046b0
