**Valve Discharge Flow Rate:**

15.0 gallons per minute

**End Application:**

6615-01-482-7995, servocylinder assembly, hydraulic, p/n 1981645. W/s designator nimitz class cvn

**Valve Operation Method:**

Solenoid

**Operating Temperature Rating:**

-40.0 degrees fahrenheit and 250.0 degrees fahrenheit

**Maximum Operating Pressure:**

3000.0 pounds per square inch

**Body Material:**

Aluminum alloy

**Port Diameter:**

0.344 inches

**Err Default:**

Err default

**Supply Pressure:**

1350.0 pounds per square inch

**Err Default:**

Err default

**Special Features:**

Bnha 4730-01-482-8399, manifold, hydraulic systems assembly, p/n 1981772; surface finish clear anodize except on mounting surface.

Mounting hardware is not supplied; recommended 4 bolts 5/16-24x1

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A508u0
