Overall Length:

4.000 inches

Overall Height:

4.230 inches

Overall Width:

1.250 inches

End Application:

Minesweeper ground support

Product Name:

Valve, counterbalance hydraulic, nacelle lift

Special Features:

Counterbalance cartridge shall have an adjustable range of from 400 to 1500 psi with a pressure setting of 900 +/-25psi. Item to have a pilot ratio of 3: 1; the all aluminum, two cavity, 90 degree, cross-piloted design to be used for load control applications and rated for 3000psi; ports v1, v2, c1, and c2 shall be sae-6 thd.

Special Markings:

900psi

Material:

Aluminum

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
