Body Material:

Aluminum

End Application:

New construction ssn-23

Shaft Rotation Direction:

Clockwise and counterclockwise

Output Drive Torque Rating:

10000.0 inch-pounds

Pressure Rating:

3000.0 pounds per square inch

Rotation In Deg:

250.0

Product Name:

Model 15m2301 rotary actuator

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A34200
