Bolt Hole Quantity:

4

End Application:

Co&h2 burner assembly, mark v burner; unit 4120; los angeles class ss (688)

Valve Operation Method:

Hydraulic

Body Material:

Stainless steel or copper alloy

Product Name:

Manifold valve assembly

Special Features:

Power requirements for entire system are 440v/3ph/60cy with 50 kilowatt hours during warmup and 35 kwh during normal operations

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A50410
