Overall Length:

0.880 inches

End Application:

Compensator

Largest Outside Diameter:

0.375 inches

Stem Actuating End Type:

Threaded externally

Special Features:

Threads to be coated with anti-galling compound per cid a-a-59004 (part number p-37). Do not paint this part. Threads 16unc-2a.

Material:

Copper alloy

Material Specification:

Astm-b150aly-unsc63200 assn standard all material responses

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A500r0
