Tempurature Rating:

140.0 degrees fahrenheit

Voltage Rating In Volts:

24.0 ac

Integral Valve Operation Method:

Electric

Product Name:

Electronic positive positioning hydraulic actuator

Special Features:

Spring return; fied 3 vdc operating span; hydraulic actuator with oil immersed motor, transducer, and pumb; internal pwer supply: 20 vdc,

25ma; 5 to 95 percent rh, non condensing

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A34200
