Flow Control Device Normal Operation Position:

Closed

End Application:

Bunn 2 burner coffee maker

Valve Operation Method:

Solenoid

Voltage In Volts And Current Type:

120.0 ac

Product Name:

Valve assembly, by-pass

Media For Which Designed:

Liquid, ingested single response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A046b0
