Flow Control Device:

Disk

Valve Operation Method:

Solenoid and manual

Valve Size:

4.000 inches

Product Name:

Solenoid actuated jp-5 fuel 4" flow control valve assembly

Disk Material:

Nickel alloy

Disk Material Specification:

Astm a494 assn standard single material response

Special Features:

Media: jp-5; this is a cartridge type valve, it has not body; fits into a manifold.

Furnished Items And Quantity:

1 indicator and 1 handwheel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A502c0
