Terminal Type:

Wire leads

Current Type:

Ac

Duty Cycle:

Continuous

Stroke Length:

6.000 inches

Braking Method:

Electric

Limit Switch Control:

Included

Manual Override:

Included

Compression Load Rating:

150.0 pounds operating

Rated Stroke Velocity:

10.000 inches per minute

Voltage In Volts:

120.0

Phase:

Single

Special Features:

Model is la-1020-d-1-10/150- (x012)(x014). Option (x012) is signal conversion module; (x014) is 3-wire incremental 120ac input control

Frequency In Hertz:

50.0 and 60.0

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A30500
