Linear Electro-mechanical Actuator - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/4810-01-519-2212 **Terminal Type:** Wire leads **Current Type:** Ac **Duty Cycle:** Continuous Stroke Length: 6.000 inches **Braking Method:** Electric **Limit Switch Control:** Included **Manual Override:** Included **Compression Load Rating:** 150.0 pounds operating **Rated Stroke Velocity:** 10.000 inches per minute Voltage In Volts: 120.0 Phase: Single **Special Features:** Model is la-1020-d-1-10/150- (x012)(x014). Option (x012) is signal conversion module; (x014) is 3-wire incremental 120ac input control Frequency In Hertz: 50.0 and 60.0 Shelf Life: N/a **Unit Of Measure: Demilitarization:**
