End Application:

Actuator hyd 1/4 turn

Integral Valve Operation Method:

Hydraulic

Product Name:

Actuator, hydraulic

Special Features:

Corrosion resistant, submersible. Housing: cast silicon bronze. Handwheel: differential drive. Worm: 17-4ph stainless. Gear: cast & machined manganese bronze. Bearing: taper roller. Switches: 250vac 10 amp or 450 vac 10 amp. Output torque: @350psi=5,000 in. Lbs. Output torque @ 750psi=13,000 in. Lbs. Output torque @ 900psi= 14,000. working pressure: 900psi. H/w rim pull @ 5,000 in. Lbs. =42 lbs. H/w rim pull @ 13,000 in. Lbs.=123 lbs. Handwheel turns for 90 degree=34. Weight: 122 lbs. Dry, 125 lbs. W/oil.

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
