Flow Control Device:

Disk

End Application:

As39 steam admission control valve

Valve Operation Method:

Air or manual

Flange Shape:

Round with holes all ends

Connection Type:

Flange all ends

Valve Size:

2.000 inches

Flange Face Design:

Raised straight all ends

Special Features:

Valve is operated by a 350 cm2, spring and diaphragm pneumatic actuator; controlled by a model 3730-3 smart valve positioner; valve has top-mounted over ride handwheel; flanges iaw ansi 600 lb. Raised face

Material:

Steel body

Style Designator:

Err-090

Furnished Items And Quantity:

1 handwheel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A046b0
