End Application:

Gear assembly speed decr, engine mdl laf 244

Product Name:

4/2 directional valve ng10; with detent

Special Features:

Construction: slide valve; voltage: 24 vdc; power requirement: 35 w; duty cycle: impulse operated; coil temperature: 300 degrees max

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A506h0
