End Application:

Waterjet mdl tdj140

Valve Operation Method:

Solenoid

Voltage In Volts And Current Type:

24.0 dc

Product Name:

4-way proportional directional control valve, direct operated.

Spool Quantity:

1

Special Features:

Name given by water jet company is bucket solenoid directional valve

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A506h0
