Flow Control Device Normal Operation Position:

Closed

End Application:

Gfe procurement lha/lhd classes

Valve Operation Method:

Solenoid

Voltage In Volts And Current Type:

110.0 ac

Product Name:

Valve assembly, pinch; inavy: pinch valve

Special Features:

Next higher assembly: 6640-01-491-9330 auto blood glycer-/deglycerolization system (cell washing machine) model acp215

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A046b0
