Pressure Rating:

15.0 pounds per square inch

Wattage Rating:

1.000 watts

Voltage In Volts And Current Type:

30.0 dc

Product Name:

Valve positioner

Special Features:

Electrical connection: 0.750 npt; flow capacity cv 0.3; temperature range: minus 40 to 185 degrees f; action 1/2 to 4 in stroke; this is a replacement for obsolete moore p/n 721p315 (m-16), 6685-01-051-6696; leslie controls modification to a moore model 760p positioner; shock & vibration qualified; requires mounting kit p/n y008960209 for initial installation

Reference Data And Literature:

Si -892

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23900
