**Flow Control Device:**

Poppet

**End Application:**

New construction lcs1

**Valve Operation Method:**

Solenoid

**Voltage In Volts And Current Type:**

24.0 dc

**Product Name:**

Directional control valve

**Special Features:**

Three way directional solenoid (air gap) with removable coil poppet valve and protected hand override; size 6; series 3x

**Material:**

Steel body

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A046b0
