Flow Control Device:

Poppet

End Application:

New construction lcs1

Valve Operation Method:

Solenoid

Voltage In Volts And Current Type:

24.0 dc

Product Name:

Directional control valve

Special Features:

Three way directional solenoid (air gap) with removable coil poppet valve and protected hand override; size 6; series 3x

Material:

Steel body

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A046b0
