End Application:

Pilot valve, steering engine

Valve Operation Method:

Solenoid

Features Provided:

Spring centered

Body Material:

Aluminum alloy

Product Name:

High performance valve

Special Features:

Emc-valve must be fitted with a metal 7-pin plug and cable must be fitted with a ferrite emc suppression core; proportional, directional, manifold/subplate mounted; pressure rating 350 bar; spool type port closed; spring centered, dual solenoid

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
