End Connection Quantity:

4

Valve Discharge Flow Rate:

5.3 gallons per minute

Valve Operation Method:

Solenoid

Voltage In Volts And Current Type:

24.0 dc

Product Name:

Proportional directional control valve

Special Features:

Ng6/cetop 3 sub-base connections; nitrile seals; electrical connection: socket, din 43650 without plug

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A506h0
