Body Material:

Aluminum alloy

Body Outside Diameter:

2.38 inches

End Application:

A/s48m-4 ums

Compressed Length:

18.25 inches

Extended Length:

26.25 inches

Integral Valve Operation Method:

Hydraulic

Design Characteristics:

Double acting single cylinder

Product Name:

Steering cylinder

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A34200
