Flow Control Device Normal Operation Position:

Closed

End Application:

F105 frigate galley

Valve Operation Method:

Solenoid

Valve Size:

2.0 inches

Voltage In Volts And Current Type:

230.0 ac

Product Name:

Normally closed ball valve

Frequency In Hertz:

50.0 and 60.0

Material:

Rubber ethylene-propylene class epm

Material Specification:

40 percent talc filled polypropylene mfr ref single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A046b0
