Flow Control Device Normal Operation Position:

Open

Valve Operation Method:

Hydraulic

Mounting Position:

Horizontal

Product Name:

Directional control valve

Special Features:

Series: d1vw, actuator: solenoid, wet pin, screw-in, style: double solenoid, 3 position, spring centered, seal: nitrile, solenoid voltage: 24vdc, insulation system: class f, allowable deviation from rate voltage: -10 percent to 15 percent for dc and ac rectified coils and -5 percent to + 5 percent for ac coils, armature: wet pin type, csa hazardous location: class ii, div 1 and 2 groups e, f and g.

Material:

Steel

Style Designator:

Straight thru

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A046b0
