Flow Control Device Normal Operation Position:

Closed

Valve Operation Method:

Hydraulic

Mounting Position:

Vertical

Product Name:

Solenoid valve

Special Features:

Poppet type, normally closed solenoid valve, 132l/min (35 usgpm) 350 bar (5000psi)

Material:

Steel body

Style Designator:

Screw-in cartridge

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A046b0
