End Connection Quantity:

1

Valve Discharge Flow Rate:

100.0 gallons per minute

End Application:

Submarine barracuda

Poppet Quantity:

1

Valve Operation Method:

Solenoid

Body Material:

Steel

Product Name:

Vent-to-open, spring biased closed, unbalanced poppet logic element with pilot source from port 1 to 2

Flow Pattern Quantity:

2

Special Features:

Screw-in cartridge type valve; viton seals

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A506h0
